

Junior 4 and 5 Newsletter

16.1.26

'I can turn my mistakes into lessons!'

We can't believe we are already at the end of the second week of the Spring term. It has been another busy and productive week, and the children continue to impress us with their focus and positive attitudes to learning. They are settling well into routines and working hard across all areas of the curriculum. We have lots of exciting activities and events planned for the rest of the term, so please make sure you keep checking the dates section of the newsletter to stay up to date.

Our Learning

English: We have continued our work on non-fiction texts, exploring in more detail why writers include a range of different features and how these help to engage the reader and present information clearly.

Maths: The children have been learning how to convert improper fractions into mixed numbers, using a variety of methods and representations to support their understanding.

Science: We have been learning the names and correct order of all the planets in our solar system. The children have enjoyed developing their knowledge and testing their recall through discussions and activities.

Geography: We have been learning where the world's deserts are located, using maps and atlases to identify different desert regions and explore their global distribution.

DT: We have been tasting a variety of soups to help us decide which ingredients we may want to include when designing and making our own soups.

Diary Dates

Friday 23rd January – Climate Change Day – children can wear green.

Friday 6th February – Number Day – Children can wear an outfit inspired by numbers.

Thursday 12th February – Valentines Disco – 4.30pm–5.45pm
