

# Junior 1 & 2 Newsletter

Friday 14th November

## This Week

This week In Maths, we have focused on developing our understanding of subtraction using the written method, with an emphasis on accuracy and presentation. In English, the children have begun their shared writing unit, producing non-chronological reports on the pangolin, where they are learning to organise information effectively and use factual language. In Science, we introduced our new topic on movement and nutrition, exploring the structure and purpose of skeletons before creating our own articulated models using split pins. In Geography, we started our new unit by investigating what lies beneath the Earth's surface, learning about the different layers that make up our planet.

## Key Dates:

Friday 5th December—Christmas Market

3:30pm-6pm

Wednesday 10th December—Christmas Lunch.

Tuesday 16th December—Christmas performance (Afternoon approx. 1:30pm)

Wednesday 17th December—Christmas performance (morning approx. 9:30am)
