

# Junior 1 & 2 Newsletter

Friday 16th January 2026

## This Week

In Maths this week, we have focused on division. Year 3 children have been grouping/sharing and using repeated subtraction to solve problems. Year 4 children have been using the chunking method to divide numbers with and without remainders. We have started to write our own twisted Tale based on the story 'The True Story of the Three Little Pigs'. Our Science lessons have been all about food groups, where and understanding the importance of a balanced diet. This week in RE, our discussions focused on how Jesus was a good leader to his disciples. The children have started yoga this week and this will continue for the rest of this half term.

## Key Dates:

Friday 6th Feb—Number day

Tuesday 10th Feb—Internet safety Day

Thursday 12th Feb—Valentines Disco

Friday 13th Feb—End of half term usual finish time.
