This Week

What a fantastic last week of the term we've all had! In Maths, we have been developing our understanding of equivalent fractions and working hard to recognise and compare them. We also enjoyed planting and tasting a variety of fruits and vegetables, exploring where our food comes from. During our Art clay day, the children created wonderful sculptures of the Leaning Tower of Pisa, inspired by Michelangelo, and showed great creativity and effort. In Science, we have been learning all about predators and prey and exploring food chains. A huge well done to everyone who created a Stonehenge model — they are all brilliant and we have loved seeing the children's hard work and creativity shine through!
