

Junior 1 & 2 Newsletter

Friday 3rd October

This Week

This week in Maths, we have been focusing on length and perimeter, measuring carefully and accurately using our knowledge to solve real-life problems. In English the children have proudly completed their shared write based on The Crow's Tale and we look forward to planning and writing our own versions next week, using the skills we have practised. This week in Art we have explored how artists build depth in a painting by looking at foreground, middle ground and background. Our investigations in Science this week were all about shadows. Using torches, the children explored how shadows change size and shape throughout the day. We have continued to enjoy our daily class novel The Wild Robot and the children are becoming more and more invested in the story's characters and adventures.

Key Dates:

Monday 6th October – Board games Club

- Dance in preparation for the dance show with Miss Griffin.

Friday – 10th October– Dance Club (sports coach) continuation of our PE topic.

Friday 10th October—Hello Yellow Day (wear something yellow) and Flu Immunisations.
