Home Learning:

Home learning has been sent home in children's wallets today.

In maths this week, Y1 have been finding $\frac{1}{2}$ and $\frac{1}{4}$ of shapes. Y2 have been finding $\frac{1}{2}$ and $\frac{1}{4}$ of amounts and solving word problems relating to these fractions. To find $\frac{1}{2}$, children know we need to split a whole into two **equal parts**. Practise breaking chocolate bars into halves and quarters. Practise cutting fruit into these fractions too!

Y2s – practise finding $\frac{1}{2}$ and $\frac{1}{4}$ of an amount using counters, pennies or other small items. Remember to keep your parts equal!

Next week's Learning:

Maths: We will continue finding $\frac{1}{2}$ and $\frac{1}{4}$ of shapes and amounts, moving into measurement again towards the end of the week.

English: We will continue to enjoy reading our new story: The Tale of Peter Rabbit. We have learned all about Beatrix Potter this week and we will be creating our own endings to her stories this half term!

Science: We will learn about the life processes that all living things can do.

History: We will begin learning about a significant sporting person from Lancashire who was awarded the Trinity Cross medal we looked at this week.
